

YAUHENIYA KAZHAMIKA

Minsk, Belarus | develop.evg@gmail.com | [LinkedIn](#) | [Telegram](#) | [GitHub](#) | [GitLab](#)

Frontend Developer, I create modern and high-performance web applications. Proficient in **JavaScript**, **TypeScript**, **React.js**, and **Next.js**, I focus on optimizing deployment processes, improving UI development efficiency, and building scalable architectural solutions. I have experience designing and implementing micro-frontend architectures for complex systems. Passionate about technology and its impact on business, I strive to develop user-friendly and high-performing digital products.

Experience

Frontend Developer

IT-MAE

Minsk

February 2023 - Present

- Developed a Single Page Application (SPA) from scratch using React/TypeScript, implementing a modular architecture to ensure project scalability.
- Integrated REST API using Axios and optimized asynchronous request handling with Redux Thunk.
- Configured Storybook for UI component documentation, which accelerated the development and testing of new modules by 25%.
- Collaborated closely with the backend team: designed API structure, optimized payload requests, and implemented caching to reduce server load.
- Created dynamic interfaces using Ant Design, including admin panels and CRUD systems for content management.
- Conducted unit tests for critical modules using Jest, enhancing the reliability of key application features.
- Utilized task trackers such as Jira and Confluence for project management and documentation.

Frontend Developer

It-Incubator

Minsk

February 2022 - February 2023

- Developed interactive web applications using React, Redux, MobX, HTML, CSS, Axios, and REST API.
- Implemented state management in applications using Redux Toolkit and MobX.
- Integrated REST API, handled asynchronous requests, and optimized data loading.
- Designed responsive and cross-browser interfaces using CSS and SCSS.
- Participated in team development, utilizing Git, GitHub, and Agile/Scrum methodologies.
- Optimized component rendering and improved application performance.

Education

Belarusian State University

Faculty of Biology

Minsk

2015
